Education

Bachelor of Computer Science

Expected Graduation : June 2027

Fatima Jinnah Women University 3.73/4 CGPA (After 3rd semester)

Post Graduate College for Women , F.SC . - Pre- Engineering, Rawalpindi

2021 - 2023

Army Public School , Matriculation – Science ,1048/1100

Graduated: August 2021

Technical Skills

Programming Languages: C++, C, Python, Assembly, HTML, CSS , Java

Tools & Technologies: Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Canva ,VS code, Sql developer ,Spider ,emu8086 ,XAMPP

Soft Skills: Time Management, Adaptability, Problem-Solving, Creativity, Communication

Achievements

- Secured 3rd position in Matriculation (Board Exams)
- Current CGPA: 3.73 (approx. 94%) after 3rd semesters

ACADEMIC PROJECTS

Banking Management System-(Programming Fundamentals | C (Visual Studio)

- Developed a console-based banking system with account creation, deposits, withdrawals, and balance inquiries using structured programming.

Resume Builder Website - Web Development | HTML, CSS, PHP, MySQL (XAMPP)

- Created a dynamic web app where users input data, preview resumes, and store information in a MySQL database using PHP backend.

Electricity Bill Manager - Object-Oriented Programming | Java, MySQL

- Designed a GUI application to automate electricity bill generation and storage based on user input and usage data.

8 Puzzle Solver (AI Project) - Artificial Intelligence | Python (Spider IDE)

- Implemented A* algorithm to solve the 8-puzzle problem; focused on heuristic design and search efficiency.

Telephone Directory System - Data Structures & Algorithms | C++ (VS Code)

- Built a linked list-based directory to add, search, delete, and update contact information dynamically.

Digital Logic Circuits Simulation - Digital Logic Design | Tinkercad

- Simulated combinational and sequential circuits, enhancing logic design and troubleshooting skills.

Fortune 500 Book Design - Design Communication | Canva

- Designed a professional digital book layout, showcasing visual creativity and design principles.

SDLC Report: Banking Management System - Software Engineering

- Prepared a comprehensive report covering all SDLC phases-ERD, DFDs, use cases, and testing strategies for the BMS project.

Experience

- Recently Doing Internship in DevelopersHub Corporation.

July 2025 - Present
